REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims are allowable over the closest prior art to Thoma et al. (US 5569523) and Sugita et al. (US 5534324). Thoma and Sugita fail to teach or suggest a digital storage medium having a first tiled magnetic layer and second tilted magnetic layer wherein one of the magnetic layers is a longitudinal magnetic layer and the other is a perpendicular magnetic layer. Furthermore, neither of the references teaches or suggests a motivation to add an interlayer in between first and second tilted magnetic layers.

It is noted that the information disclosure statement filed 11/14/05 has been fully considered and an initialed copy is included with this communication. None of the references cited therein teach or suggest the above noted features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Rickman whose telephone number is (571) 272-1514. The examiner can normally be reached on Monday-Friday 9:30-6:00.
